Neighbourhood Watch - Local Neighbourhood Watch schemes work in a variety of ways that reflect the needs of the local community. This includes: sharing crime prevention advice and information; running awareness campaigns; holding social events and awards for local people and businesses; leading community projects, such as litter picks, a community café, flood defence response, presentations in schools and work with young people and children and community messaging with the police. For further information on the work of the NHW and instructions on how to create or join a scheme, visit here - <https://www.ourwatch.org.uk/>

Street Safe - The force is supporting StreetSafe a new national online tool to allow people to flag places where they have felt unsafe. The system - which is primarily aimed at women and girls - allows members of the public to anonymously drop a pin onto a map and describe factors that caused them concern, including behavioural or environmental reasons why they felt unsafe. Superintendent Mike Smith, community and response policing lead for Warwickshire Police, said: "We're pleased to support and promote this national initiative. Everyone has a right to walk the streets safely and we are committed to ensuring this happens. A key part of this is tackling violence against women. "We will use the information collected using this tool alongside other community intelligence to identify areas of concern and put measures in place to address them."
